Position Title: Technical Architect – System  
Administrator - Networks

Classification: Assoc. Systems Software/SSS I (Tech)

Location: 11120 International Dr.

Section/Unit: CCSAS Project/Systems Management  
Section

Salary Range: \$4308-5235/\$4731-5753

Number of Vacancies: 1

## Job Description: (includes typical duties)

Under the general supervision of the Systems Management Section Manager and direction of a Lead Technical Architect the Systems Software Specialist (SSS) works as a Technical Architect/System Administrator - Networks. The successful candidate will work with CCSAS Project staff, Business Partners (BP), The Department of Technology Services (DTS), Local Child Support Agencies (LCSA) and County IT staffs to design, implement, and maintain the network on which the California Child Support Automation System (CCSAS) will be developed and deployed. Activities include overseeing and participating in the planning, design, implementation, and configuration of telecommunication links, including circuits, routers, switches, and firewalls, network monitoring and maintenance hardware, implementation and maintenance of network architecture components for managed services, and performing Windows NT administration services. The incumbent will also oversee the rollout of the CCSAS WAN to sites throughout the State.

## Required Knowledge, Skills, and Abilities:

- Experience administering a data network for a large system
- Experience designing networks utilizing a variety of transport technologies such as ATM, Frame Relay, T1, 802.1x, TCP/IP, etc.
- Experience designing implementing, and maintaining a variety of switching, router, firewall, telecommunication, and network equipment
- Excellent technical troubleshooting, analysis, and problem solving skills
- Strong interpersonal and communication skills, and ability to work successfully in a team environment while demonstrating initiative and independence
- Strong organizational skills and ability to successfully manage concurrent assignments
- Willingness to travel throughout the State

## Desirable Experience / Qualifications:

- Experience with network management and/or monitoring tools such as Tivoli Enterprise Console and Concord eHealth
- Experience with implementation of security policies for applications, networks and telecommunications
- Experience performing Windows NT administration services
- A broad knowledge of all technical disciplines required to support a mission-critical system
